

## **REGULATEURS EUROPA ICENI I/O Range**

*REGULATEURS EUROPA Ltd. (RE) is proud to introduce a new product range that has wide implications for the future of their extensive control and monitoring systems business in Colchester UK.*

The ICENI range of distributed I/O modules can be used to communicate with PC or PLC equipment or extend the range of the RE Viking35 ECU. The DIN rail mounted modules are designed to be cost effective and easy to configure, via a colour display keypad, without the need for a programmer or laptop. "ICENI" has been built to a high specification to encompass the extended temperature range of an engine environment but be equally suited to a much wider role; both to enhance RE control and monitoring solutions or as a product for other OEMs.

- ➔ Open protocols to PLCs, PCs etc.
- ➔ Extended temperature range (-20 to +70 °C)
- ➔ Inbuilt user interface for commissioning and support
- ➔ Robust construction
- ➔ Independent electrical isolation
- ➔ Redundant power supply capability
- ➔ "Plug and Play" automatic configuration
- ➔ Cost effective solution for a wide range of applications

REGULATEURS EUROPA ICENI Distributed I/O Modules

**Regulateurs Europa Ltd. ([www.regulateurseuropa.com](http://www.regulateurseuropa.com))**

REGULATEURS EUROPA has been providing diesel engine governors since the 1950s. It now offers integrated solutions for control and monitoring of plant and equipment in the industrial, marine, traction and power generation industries.

Since 2005 REGULATEURS EUROPA has been part of the HEINZMANN group, provider of electronic fuel injection controls, complete common rail components as well as mechanical, analogue and digital electronic engine control systems.

The REGULATEURS EUROPA control and monitoring systems capability, together with its range of hydraulic governors and actuators, fits well with HEINZMANN's comprehensive product range; thus establishing a full-line provider of controls for all major types of prime mover and associated plant. REGULATEURS EUROPA production facilities are located in Colchester, United Kingdom, and Roden, The Netherlands with a worldwide sales and service network.
